## Product Benefits

### Low cost High color!

With 50% lower white-transfer printing costs, you'll be saving money with each and every high-quality print. Get ready to produce consistent, vibrant full-color graphics for all your projects!

### Virtually maintenance free!

Toner based printers require significantly less maintenance than ink based systems. No wasted toner on nozzle checks and head cleaning that happens with traditional printers.

### Built-in touch screen tablet.

Need a helping hand when you're using your iColor? Use the built-in 10" screen tablet to pull up how-to videos or projects to inspire you!
