Hotronix®

Product Benefits

Functions as a swinger or drawer press.

Allowing customers to operate the press in tighter spaces and providing them more space when working with substrates.

Optional quick-change lower platens, no tools required.

Customers no longer have to purchase more than one press for different size substrates, but are able to purchase different size platens for different size substrates.

Touch Screen Technology: program an unlimited number of frequently used application settings.

Customers are able to select specific settings quickly for different jobs.
