

DURALUXE

ALUMINUM SUBLIMATION PANELS

6 REASONS TO USE EXTERIOR DURALUXE

REASON

①

5 Year outdoor warranty without over-lamination regardless of where and how you will use it.

REASON

②

A sublimated Duraluxe sign is weatherproof. Duraluxe has been tested against salt corrosion, and will not be effected by thawing, freezing, rain, or other environmental factors.

REASON

③

Duraluxe panels are strong yet light-weight. Bendable and easily worked, and they can be bent after sublimation without the risk of damaging your work.

REASON

④

Five of the coating styles have built in Anti-graffiti characteristics, again without over-laminating or any additional steps

REASON

⑤

Since sublimation is full digital color, you can incorporate digital photographs into your signage which can help make them visibly captivating and appealing. They say, "A picture is worth a thousand words." Signs have a limited space to present a given message, so being able to incorporate digital photos, helps with that messaging.

REASON

⑥

Duraluxe uses only water based inks and powders, and are VOC free and TGIC free.
