

Seklema Instructions

- Clean your engraving table of dust, oils, engraving chips, etc.
- Adjust your spindle travel to allow for depth of mat.
- Place Seklema TableMat on engraving table. Using tape to secure is optional, but not necessary.
- Place engraving material on top of Seklema TableMat and begin engraving. Let Seklema go to work speeding up your production and efficiency!
- Remove engraving material from mat and repeat process.
- Clean Seklema TableMat regularly with water and a lint-free cloth. This helps keep your mat in its original form and engraving to the accurate depth.
