

STAINLESS GROWLER

SWG34, SSG34, SWG64, SSG64

Settings

- **Time:** 34oz = 6 min. | 64oz = 7 min.
- **Temperature:** 375° F
- **Pressure:** Moderate

Tools & Accessories

- Convection Oven Only
- Mug Wrap or EZ Wrap
- Heat Tape

Fabrication Process

- Remove cap from the growler.
- Affix the transfer to the growler using heat tape.
- Place sacrificial paper over the transfer.
- Wrap the product using the mug wrap or EZ wrap material.
- Place in convection oven.
- After cure time, remove from oven and set aside to cool. Water bath can be used for faster cooling.

Note

Use caution when removing from oven. Product will be extremely hot.
