

## JP450 MUG PRESS ATTACHMENTS

The JP450 mug press has two different variations. The older models have a 5 prong connection system for the heating elements. The newer versions have a 4 prong system. **It is important when ordering replacement or additional heating elements that you identify the correct prong attachment on your mug press.**

5 prong systems use the following item codes:

- **JP4H1:** 11oz & 15oz Mug Heating Element
- **JP4H2:** Water Bottle Heating Element
- **JP4H3:** 12oz Latte Mug Heating Element
- **JP4H4:** 17pz Latte Mug Heating Element

4 prong systems use the following item codes:

- **JP4H1-4:** 11oz & 15oz Mug Heating Element
- **JP4H2-4:** Water Bottle Heating Element
- **JP4H3-4:** 12oz Latte Mug Heating Element
- **JP4H4-4:** 17pz Latte Mug Heating Element
