F6370 Production Model with Take-Up Reel.

- + With lightning-fast print speeds of up to 680 square feet per hour, this 44" dye-sublimation printer quickly and efficiently produces high-quality images for promotional products, apparel, photography products, cut-and-sew fabrics and more!

The Epson UltraChrome DS ink technology offers vibrant colors, intense blacks, sharp contours, and smooth gradations with extremely fast drying times... all with Epson's reduced print head maintenance and longer print head life.

Also includes a built-in cutter for roll-to-sheet convenience and included take-up reel system for unattended printing (F6370 Production model).

Product Benefits

Fast Print Speeds. High Quality Results!

With print speeds of up to 680 square feet per hour, getting orders out the door has never been faster. Your customers will be impressed with the turnaround AND high quality results.

Reduced Cost of Ownership.

Epsons 1.1-liter, high-capacity ink packs contain 10 percent more ink than previous ink packs, and the easily accessible maintenance area ensures consistent, reliable performance.

Auto Media Reel.

Multitasking just got easier! Leave your F6370 Production model sublimation printer safely unattended during print-runs. The high-performance Media Take-Up Reel keeps your prints safe and frees up time to work on other business needs.
