JOHNSONPLASTICS Plus

EPSON F6370 Production Model Printer.

MAXIMIZE PRODUCTIVITY.

With a **44" wide print size**, the F6370 Production model increases productivity printing at speeds up to 680 sq ft per hour! That means you can sublimate to large items or print multiple transfers at lighting fast speed!

HIGH-QUALITY RESULTS.

The Epson UltraChrome DS Ink Technology offers vibrant colors, intense blacks, sharp contours, and smooth gradations with extremely fast drying times... all with Epson's **reduced print head maintenance and longer print head life.**

HANDS FREE PRINTING.

Multitasking just got easier! Leave your Epson F6370 Production model safely unattended during print-runs. Epson's high-performance Media Take-Up Reel keeps your printouts safe and frees up time to work on other business needs!

LOWER COST OF OWNERSHIP.

NEW Epson's 1.1-liter, high-capacity ink packs contain **10 percent more ink** than previous ink packs, and the easily accessible maintenance area ensures consistent, reliable performance.

EXPAND PRODUCT OFFERING.

Why limit what you're offering your customers? With the F6370, you can expand into new markets offering your customers thousands of diverse products.

^{*}Epson F6370 Standard model without take-up reel also available.
