PROS AND CONS OF THE TOP 3 MOST COMMON 2-STEP MEDIA TYPES

ICOLOR SELECT 2-STEP MEDIA

Pros:

Clear coating on top of art to protect it

Easy to use - self weeding

Transparent transfer sheet: easier to position on garment

Lowest cost 2-step solution

Stronger adhesive for better stretching

Can feed through the MPT of the 550 without scratching

Matte finish

Cons:

Higher press temp compared to premium media

Longer press time compared to premium media (adhesive step)

Less durable compared to premium and select media

Not as soft as premium media

Not as forgiving on delicate fabrics

Less brilliant colors compared to premium and standard media

ICOLOR STANDARD 2-STEP

Pros:

Clear coating on top of art to protect it

Easy to use - self weeding

Transparent transfer sheet: easier to position on garment

More affordable

Transfer sheet bigger than adhesive to better align the two

Markings on back of adhesive

Thicker, more rigid transfer sheet, minimizing jamming

Available in many sizes and thicknesses

Cons:

Higher press temp compared to premium media

Longer press time compared to premium media (adhesive step)

Less durable compared to premium media

Not as soft as premium media

Not as forgiving on delicate fabrics

Less brilliant colors compared to premium

Susceptible to weather and humidity changes

Shinier final product

ICOLOR PREMIUM 2-STEP MEDIA

Pros:

Lowest press temperature

Easy to use - self weeding

Softest feel (hand)

Longest durability and wash life

Ideal for synthetics, polyester, and delicates

Excellent color matching and brilliance

Ideal for stretchy material (stretch version)

Shorter press time (adhesive step)

Matte finish

Cons:

Opaque transfer media instead of transparent

Highest cost

No markings on back of media

Use of laminator recommended
