

TOP 5 Reasons to buy a UniNet iColor 560 Digital Color Transfer Printer

01 BEST IN CLASS WITH A LOW COST.

With its high yield white toner cartridge capacity of 7,000 pages, small print graphics and full color capabilities, the iColor 560 combines absolute versatility with superstar performance.

02 DO MORE WITH YOUR BRAND.

Feature your brand of garments, hard surface products, printed paper items, and more in any quantity and customized however you want.

03 BUY ONE. GET SIX!

The iColor 560 does it all! With this printer, you can do white overprint for textile and apparel applications, white under-print for non-transfer applications, dye sublimation products and fluorescent colors with the purchase of additional toner cartridges, CMYK transfers, and gold and silver printing.

04 ENHANCE YOUR APPAREL DECORATING.

With the ability to use white in your graphics, the apparel you can offer is really endless! Produce stunning full-color graphics and transfer to virtually any dark or light-colored textile or substrate. The finished product will be soft to the touch, bright-colored, and will last for several washes.

05 CUTTING EDGE TECHNOLOGY.

The iColor 560 is virtually maintenance free, has WiFi connectivity, and offers stunning 2400 dpi resolution for fast, high-quality transfers.
