

SwingMan 15

Key Features

Press

The HIX SwingMan 15 sets the industry standard in heat press design for sublimation and textile heat transfer production. This will provide incredible advantages to the operator – reducing fatigue and increasing productivity.

Mobile

For those mobile shops where your business travels with you, this portable unit is only 57 lbs. and takes up very little space and work surface.

Design

Recognized as one of the most reliable small format swing-away heat transfer presses on the market, this unit packs a lot of punch. At the heart of the SwingMan 15 is a 15"x15" lifetime guaranteed cast-in heating element with a swing-away design that keeps the hot surfaces away from your hands and arms. It's engineered with a sturdy steel design and an easy-adjust pressure control, full-range temperature settings from off to 400°F, a heat indicator light, and a separate handheld digital timer.

Overview

The HIX SwingMan 15 heat press is perfect for start-up, small, or mobile shops who are intent on high quality impressions and reliable equipment for the sublimation market.

The SwingMan 15 offers the ability to do garment transfers ranging from youth to XL adult sizes, and accepts substrates up to 1-3/4" thick. The capability to imprint tiles, license plates, and mouse pads are all now available to you!
