Rowmark®

nouveau™
curved aluminum

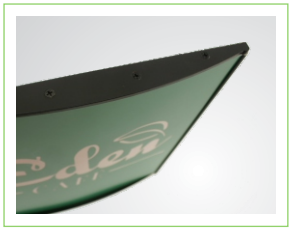

The modern styling of the Nouveau™ curved frame system will give your next signage project a sleek, dimensional look. Created specifically for today's designers and sign makers, Nouveau frames add a subtle hint of contemporary design without overwhelming the intended message.

Features:
» Frame material: anodized aluminum
» End cap material: polymer
» Indoor weatherable
» Substrate thickness: 0-0.06" / 0-1.5 mm
» Installation method: screws or tape
» Sold individually
» Comes assembled with clear lens

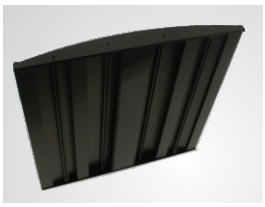

Nouveau™ wall plates (available with black or grey end caps)
